## **Mold and Moisture: Double Trouble for Schools**

This 1 hour training:

- Explored effective strategies for responding quickly to mold remediation and learning about cleanup practices.
- Prepared participants to communicate effectively with community stakeholders about how a mold issue is being handled.
- Provided access to tools and resources that will help effectively manage mold and moisture problems.
- Demonstrated how a school district in Texas that struggled with mold issues used the *IAQ Tools for Schools* guidance to institutionalize mold and moisture prevention practices.

Presented by the School Health and Indoor Environments Leadership Development (SHIELD) Network
